Getting Along

It is hard to believe that the term is already almost halfway over! Despite disruptions to our usual learning timetables at times due to illness, sports carnivals, photos and yoga it is pleasing to see all students remaining committed to doing their very best and working towards their learning goals.

Year 1 will be participating in the Phonics Screening Check in the coming week to check student progress in phonetic skills which are an essential component of learning to read.

In Week 2 National Tree Day was celebrated by us. Together we planted a beautiful olive tree in a pot and placed it near the office door on the verandah. Traditionally, the olive tree is a symbol of peace and friendship, so we feel that this tree is a very appropriate visual reminder of what we as a school aim for in our relationships with each other.

Ruth Weatherall
Classroom Teacher
