You can do it!  
Resilience

This semester in History we have moved on from family stories and the importance of historical accounts and artifacts, to learning about celebrations (and commemorations). Currently, students are working on different international festivals. They have created a slideshow using Google Slides and are presenting it to the rest of the class. Each student chose a different celebration, so by the end of term we will be more knowledgeable about world culture and the people that make up this multicultural Australia.
