You Can Do It!
Persistence

What an exciting term 3 it has been for students at Yetman Public School. For sports this term students have been introduced to a wide range of circus skills. They have been practicing scarf throwing, juggling, plate spinning, skipping, hula hooping and feather balancing. Every week they have had to practice not only the skill but their patience and persistence. I must say they have outdone themselves overcoming the challenges.

This Thursday it will all come together as the students are hosting a mini circus performance for our preschool. Students will select a skill and create their own act and work in pairs /small groups to create a second group act. I cannot wait to see what they have come up with. Don't fear parents and friends, you won't miss out. The end of year performance allows students to showcase these skills again!
